

INTERNAL COMMUNICATION

FOR

OFFICE, HOME OR FACTORY

10 KEY MASTER STATION

TYPE "HL.10" SUB-STATION
for connecting to ten other points
including Master Stations.

In a small office, or in a large works, Dictograph Internal Telephones provide centralised control for Executives without manipulating dials, searching for lost and often inaccurate directories and without loading the outside Switchboard with the burden of inside calls. A minimum of mechanical movement, combined with

sound construction, careful installation and reliable maintenance enables the Company to claim for its products a record of continuous efficiency second to none. Service is available anywhere in the British Isles for attention to an Installation whenever required. Inspectors are resident throughout the country.

DICTOGRAPH INTERNAL TELEPHONES

PROVIDE THE FOLLOWING FACILITIES:—

- **Finger-tip Control**
The simple act of raising a key gives instant conversational contact with any part of your organisation.
- **Instantaneous Contact**
"Inside" information immediately available during trunk or local calls, without waiting, breaking the connection, calling back or dialling.
- **Direct Connection**
No Switchboard—no operator—Dictograph is the shortest line of communication. No congestion of calls—no complicated mechanism.
- **Executives' Right of Way**
Principals have priority over conversations at all times.
- **Loudspeaking for Executives**
With privacy when desired.
- **Executives' Dictation and Conversation**
can be carried on whilst moving about the room.
- **Private Conversation**
Executives' conversations are not "cut off" or interrupted.
- **Conferences**
Three or more associates can converse without moving a man from his post.
- **Visual Indication of Source of Calls**
Enables Executives to ignore inward calls if engaged.
- **Complete Inter-communication**
Every unit has access to every other unit in the Organisation.
- **Door Control and other Accessories**
The Portograph prevents interruptions. In addition to Door Signals such as "Engaged," "Enter," Executives can have "IN" or "OUT" Indicators, etc.
- **Staff Location**
Round Call System can be incorporated in any Dictograph Telephone System, but separate DICTO-CALL LOUDSPEAKER STAFF LOCATION Equipment is desirable for large Organisations. (See separate leaflet.)
