

BRITISH TELECOMMUNICATIONS ENGINEERING

INDEX

VOLUME 10 (April 1991–January 1992)

including TELECOMMUNICATIONS ENGINEERING: A Structured Information Programme Issues 1–3

(Units from the *Structured Information Programme* are indicated by 'S' followed by the Chapter and Unit numbers.)

A	
Access Network, Fibre in the	40
Access Network in a Changing Environment, Planning the	8
Access Network, Local Network Resource Plan—The Introduction of Total Quality in the Local	59
Access Network Management, Local	211
Access Network, Radio in the	34
Access Network, Special Issue on the	
Introduction	2
Access Network, Towards a Hassle-Free	66
ADAMS, P. F., and LISLE, P. H. Exploiting the Copper Network	26
Adaptive Quality Management Systems	343
Alarm Management	218
ALLEN, P. A., and LISLE, P. H. Planning the Access Network in a Changing Environment	8
ALLEN, P. A. Special Issue on the Access Network	
Introduction	2
AMBLER, H. G., SCOBIE, C. H., and BALDWIN, V. W. Switch Management: The Operations and Maintenance Centre	187
Architecture for SDH, Defining Network	116
Architectures?, Why Standards and	S14.1
ASHTON, D. J., MUIR, M., CLOW, D. G., and THOMAS, J. D. Digging up the Roads—Providing BT's Duct Network	20
Assessment Tools, Performance	235
Automated Line Testing for the BT Repair Service	75
Awards for Volume 9, Journal	164
B
