KINGFISHER

British
TELECOM

THE KINGFISHER. IT CATCHES ALL YOUR BUSINESS CALLS.

IN BUSINESS.

Business opportunities need never get away again, with British Telecom's new Kingfisher answering machine.

It's affordable, very easy to operate and carefully designed to make sure that you catch every business call with all the reliability you'd expect from British Telecom.

Giving you the freedom to move around outside your office or workplace, as you please.

IN CONTACT.

Even while you're out, you can still make the Kingfisher work for you. Because it allows you to call in wherever you are, and listen to your messages.

You can replay, store, or erase without having to wait until you return to the office.

And this facility is only available to you

personally, securely and confidentially, thanks to a personal bleeper which we provide with the Kingfisher

And if you have business partners or colleagues, with extra beepers, you can keep in touch with each other through the Kingfisher's message memo facility.

IN STYLE.

The Kingfisher packs a lot of sophisticated features into a compact, stylish shape. An electronic display tells you how many calls are waiting to be dealt with, and micro-processor operation with simple controls make everyday use very easy.

If you're in and you're busy, you can leave the Kingfisher switched on and screen all your calls as they come through, personally answering only the ones you want to.

You can even choose how long it takes for the Kingfisher to answer.

THE KINGFISHER

Main features include
