

# Charges for Telephone Service, Telex Service and Apparatus

The charges shown in this leaflet are correct as at 2 January 1980 and may be revised subsequently by the Post Office.

The charges shown are exclusive of Value Added Tax and an amount in respect of VAT will be charged as an addition to customers' bills.

These charges are for each individual item supplied. This list is not comprehensive and details of charges for other items and services can be obtained from your local Telephone Sales Office.

Charges are not shown for external extensions or inter-switchboard circuits as these depend on the facilities required and the distance involved.

On the same telex centre, and up to 56 kilometres apart.	60	9p
On centres over 56 kilometres apart.	20	27p

†The charge per additional minute or part of a minute is one third of the figure shown.

**International Telex Call Charges**

All direct-dialled calls to European countries are charged in 2½p units, but the amount of time bought varies with the country called.

Calls beyond Europe, most of which can be obtained automatically, are charged in one minute periods with a 1 minute minimum charge. Examples of call charges are £0.75 per minute to Canada and USA; £0.90 per minute to Australia and Japan.

Overseas calls connected through the International Telex Switchboard are charged for a three minute minimum period, and for one minute intervals thereafter.

**Note:** Other information, including the details of the call charges to all overseas countries to which telex service is available, is given in the preface of the Telex Directory.
