

Charges for Telephone Service, Telex Service and Apparatus

The charges shown in this leaflet are correct as at 1 May 1975

The charges may be revised subsequently by the Post Office.

The charges shown are exclusive of Value Added Tax and an amount in respect of VAT will be charged as an addition to customers bills.

This is not a comprehensive list. Details of charges for other items and services can be obtained from the Telephone Sales Office.

Charges are not shown for external extensions or inter-switchboard circuits as these depend on the facilities required and the distance involved.

VAT exclusive charge

Inland Telex Call Charges

Between subscribers	Dialled calls Seconds for 1½p	Operator connected calls minimum chargeable period 3 minutes †
On the same telex centre, and up to 56 kilometres apart.	60	4½p.
On centres over 56 kilometres apart.	20	13½p.

†The charge per additional minute or part of a minute is one third of the figure shown.

International Telex Call Charges

All direct-dialled calls to European countries are charged in 1½p units, but the amount of time bought varies with the country called.

Overseas calls connected through the International Telex Switchboard are charged for a three minute minimum period, and for one minute intervals thereafter.

Calls beyond Europe, most of which can be obtained automatically, are charged in one minute periods with a 1 minute minimum charge. Examples of call charges are £0.75 per minute to Canada and USA ; £0.85 per minute to Australia and Japan.

Note : Other information, including the details of the call charges to all overseas countries to which telex service is available, is given in the preface of the Telex Directory.

call charge	Confravision	leaflet number
