# EXTENSION TELEPHONES ARE WORTH WHILE

In business they save the time of your staff, enable better service to be given to your customers and increase your prestige.

In the home an extra telephone by your bedside or near your favourite armchair will save fatigue, give privacy when necessary and add to the pleasure of speaking to your friends. The convenient and attractive black hand-microphone instrument is provided without additional charge on new extensions.

## THE COST IS SMALL

A simple extension telephone for use in business costs as little as 4/- per quarter, and for home use 3/6 per quarter. A connection charge of 5/- is made for each extension telephone.

## HAND MICROPHONES

If you are not already enjoying the convenience of this modern and shapely instrument you may like to know that a model in black can be provided in place of your present telephone for a single payment of 5/-. A hand-microphone in ivory, green or red can be supplied for a single payment of £1.

# EXTENSION TELEPHONES

THE POST OFFICE IS HAPPY TO ANNOUNCE a reduction in the charges for extension telephones installed in the same premises as the main telephone. From January 1st, 1936, the additional charge for the simplest form of internal extension has been reduced to 3s. 6d. a quarter—less than a halfpenny a day—in private residences, and to 4s. od. a quarter in business premises. The charges for other forms of internal extension have also been reduced.

## IN THE HOME

WITH ONE TELEPHONE IN THE HOME, THE natural tendency is to place it in the position of most general usefulness at some sacrifice of privacy and comfort.

An extension telephone in the sitting-room, study or bedroom gives you greater comfort and privacy ; in the bedroom also it is at hand in emergency or sickness.

## IN BUSINESS

AN EXTENSION TELEPHONE PLACED within easy reach of every member of your staff will save their time and save you money. The ease with which callers can be put into touch with the right person will enhance your reputation for business efficiency. Certain kinds of extensions also afford quick and efficient intercommunication between departments.
