

THE VISCOUNT

From
British Telecom

British Telecom are pleased to announce the introduction of the Viscount – a new fully electronic telephone.

Viscount's low profile sleek lines, designed for elegance and durability, offer up-to-the-minute technology consistent with the 80's.

Ideal for use both in the home and the office, Viscount can be table or wall-mounted: a simple bracket is available, at an additional charge, for wall-mounting which also acts as a resting place for the handset if the user wishes to put it down during a call.

Features

- Press-button calling
- Volume adjustable tone caller
- Modern low profile
- Integrated body and handset design
- Table or wall-mounted
- Light and easy to carry
- Connected by modern plug-in method

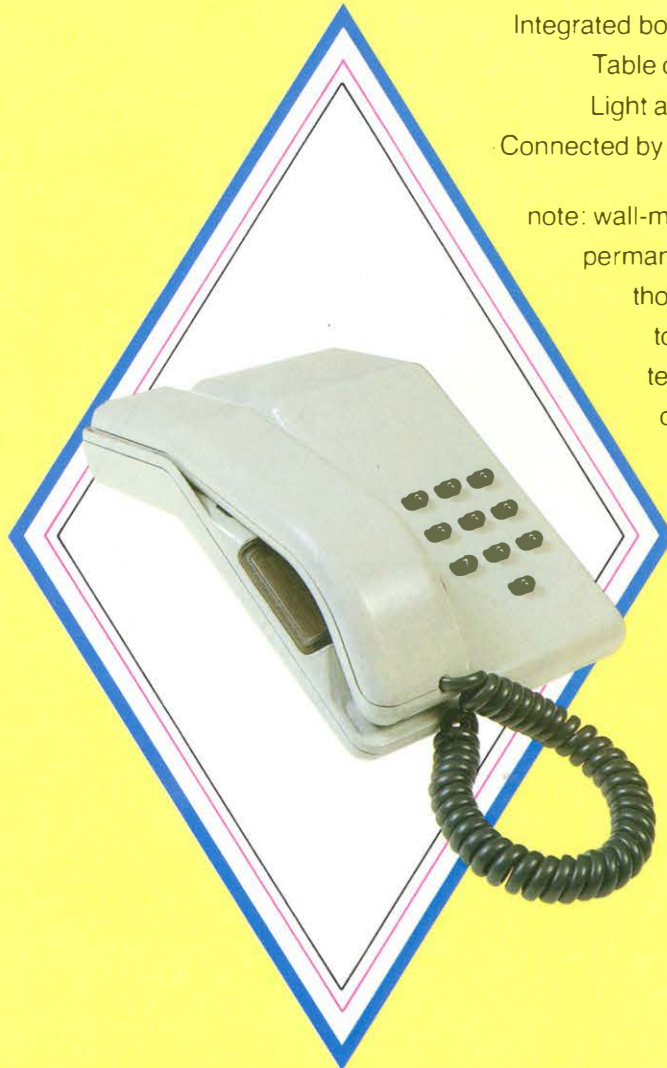

note: wall-mounting can be either permanent or casual for those who wish to move the telephone on occasions.

Colours

Ice grey : Beige : Tan : Green

Each Viscount telephone is fitted with the new standard British Telecom plug to be used with our new Phone Sockets. If you have several Phone Sockets installed, moving your phone is as easy as moving your table-lamp.

Viscount is fully tested and approved for connexion to the British Telecom Network. It can be used on most PBX and Call Connect Systems but is not suitable for use on shared service lines.

Note: press-button telephones

Due to the gradual introduction of new equipment throughout the British Telecom Public Telephone System, customers ordering press-button telephones may be provided with either ten or twelve button models, and in some instances a new dial tone.

Users of the twelve button models will also hear a 'confidence tone' on depression of the press-buttons. This tone varies between press-buttons, simply informing the user that the telephone is functioning correctly.

Initially there will be no new facilities provided with the additional buttons, but their introduction is the groundwork for future new customer services. Because of this, no choice will be offered, and there will be no difference in charges.

Please note: We do our best to supply our customers with the apparatus they ask for but we may have to provide apparatus which does not accord exactly with the descriptions, illustrations and shades of colours shown in this leaflet.

Your local British Telecom Sales Office will gladly supply any further information or details of any changes in the information in this leaflet since it went to print. The address, telex and telephone numbers are shown in the preface of your Telephone Directory.

APPROVED for use
with telecommunication systems
run by British Telecommunications
in accordance with the conditions
in the instructions for use.
