The Ericofon 600 by Thorn-Ericsson

The Ericofon 600 is an up-to-date one-piece space-saving telephone with the dial under the base.

Because it takes up so little space it's ideally suited on a window sill, bookshelf or bedside table. It's also slim, functional and easy to hold.

It can be installed as a main telephone or, in most home situations, as an extension. It is available in ivory or orange.

A separate bell is provided with this telephone.

The Ericofon 600, manufactured by Thorn-Ericsson Telecommunications (Sales) Ltd., is installed and maintained by British Telecom.

Call your local British Telecom Sales Office for further details of the Ericofon 600. The address and telephone number are shown in the preface of your Telephone Directory.

It is not possible to use the Ericofon 600 on shared exchange lines.

For charges see separate leaflet.
