The atl Berkshire MR51 & 61 Featurephones - with Caller ID

The atl Berkshire MR51 & 61 Featurephones - with Caller ID

Call Line Identity

A leading UK manufacturer of telephone handsets, the atl Berkshire MR51 & 61 Featurephones with Calling Line Identity, offers the ability to display the name & number of an incomming call. This display also allows us to show a log of previous callers along with time & date. Programming is also made easier when the need arises to confirm the content of any memory store location within the telephone.

Full Handsfree Speech

Makes the **Berkshire MR51 & 61** the ideal choice for small conferences, meetings and any occasion where a group discussion is required.

Headset Compatibility

The Berkshire MR51 & 61 are suitable for use with all leading brands of headsets. As headset specifications vary, please check with your headset supplier.

Badging

Take full advantage of brand awareness by badging the MR51/61 with your companies logo. We have a team of specialists available to advise on our silk screen printing service and to assist with artwork.

Lamp Indicators

Hands Free, Mute, Do Not Disturb, Missed Calls and Voicemail, all have bright red LED lamps to indicate status.
