Siemens masterset 111 – the ideal telephone for every work place

Siemens masterset® 111 is
an attractively styled modern
telephone.

Siemens masterset 111 creates a
more pleasant working environ-
ment and fits in with any office
decor.

Its unbreakable casing contains
the results of a perfected and
proven technology.

Its characteristic feature:
a handset which is always within
easy reach.

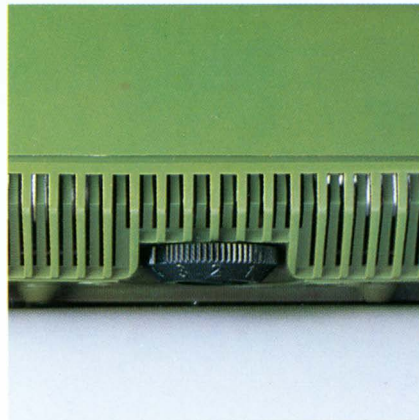

Sets can be supplied in four colors: beige, fern green, light gray and dark red.

The rate indicator makes for cost-conscious telephoning by users as well as allowing an easier analysis of office overheads.

The Siemens master set 111 standard telephone is available with a pushbutton set or dial.

The volume of the tone signals can be adjusted according to taste.

A convenient grip makes the set even more handy.

Siemens masterset 112 – wall telephone

The wall telephone Siemens masterset 112 is especially suitable for storage depots, department stores, workshops, hospitals, etc. – wherever there is no room for a desk telephone.

Sets are available in fern green and light gray. They are rugged and unbreakable. All wall telephones are available with a push-button set or dial. An extra earphone is recommended in noisy surroundings.

Very practical: the wall telephone with the handset in its off-hook position.
