

N DIAGRAMS - GENERAL INFORMATION

1. NUMBERING

Each Diagram within the N series is allocated an identification number. This number is printed in the top corner of each page of the diagram.

2. COLOUR OF PAPER

3 colours of paper are used in the printing of N Diagrams:-

White Paper:- indicates that the information shown is current and should be used for new work.

Red Paper:- indicates that the information shown refers to special installations or that the diagram is not distributed.

Yellow Paper:- indicates that the information shown refers to obsolescent facilities, apparatus or installations. A diagram printed wholly on yellow paper indicates that the type of apparatus used, or the facility, is obsolescent and may not be used for new work. A diagram having individual sheets printed on yellow paper indicates that the information shown on those sheets is obsolescent. Only the information shown on the white sheets of the diagram should be used for new work.

3. CLASSIFICATION

For distribution purposes there are **three classifications** of N Diagrams.

General - refers to basic diagrams for PMXs, Telephone Bells, Bell Sets, etc.

CB & Auto - refers to installation and maintenance diagrams for CCBs and extension plan arrangements.

Nil - refers to diagrams printed on red paper.

4. SETS

To facilitate the setting up of new diagram files current and obsolescent diagrams are listed in sets as follows:-

SET TYPE OF INSTALLATION OR APPARATUS

INDEX
Dgm. N....

Non-CCB Apparatus

---	-------------------------------	-----

Diagrams printed on Red paper are not included in the above sets.

Sets A1, C1 and D1 were assembled primarily for the use of One Man Installers. The other sets are intended for use by installation and maintenance staff, depending upon the types of installation covered by the officer.

5. DISTRIBUTION

New or revised diagrams are distributed to officers holding authorised files to which the diagrams belong.

The revision or amendment of a diagram is denoted by the advancement of the issue letter, a precis of the reasons for the revision is shown in the title box.

Diagrams printed on Red paper are not distributed whether they are new or have been revised. Obsolescent (Yellow) diagrams containing editorial changes only are also not distributed.

6. REQUISITIONING OF DIAGRAMS AND SETS

Individual diagrams or sets may be obtained from Purchasing and Supply Department, Supplies Division, P&S2/RS5 by requisitioning them on Form A2727.
