# Types of telephone

This leaflet describes the standard, premium and special range of telephones which give customers a wider choice of telephone for the home or office and in some cases new and improved facilities.

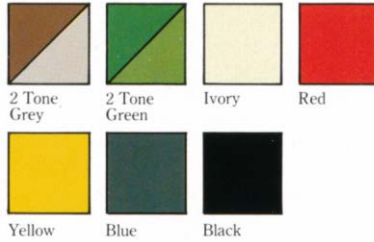

## Standard Telephones

### Tablephones

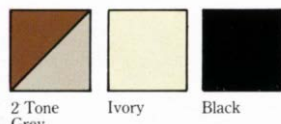

The tablephone comes in seven colours:

### Wallphones

These space-saving phones are available in three colours

## Special Range Telephones

*Additional charges apply*

**The Rhapsody** by GTE An up-to-date electronic press-button telephone designed to look good in any modern home or office. It has an integral bell with volume control and is suitable for table/desk top use and wall-mounting. It also has a secrecy button which, when depressed, cuts off the

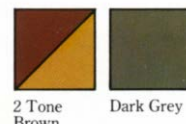

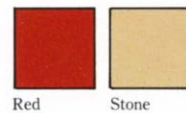

microphone. Rhapsody is available in beige, ivory or a light tan leather covering. The ivory and light tan leather versions are also available for business users requiring PBX recall.

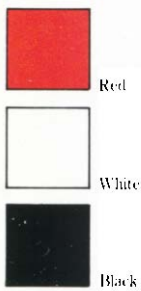

### The Eiger

by Gfeller Telecommunications is a strikingly attractive one-piece press-button telephone. It incorporates a 'memory button' which when pressed automatically recalls the last number called, very useful for those often engaged numbers.

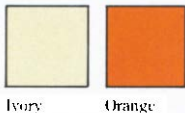

It has a textured finish and is available in red, stone or two-tone brown. A dark grey version is also available for business users where PBX recall is required.

**The Candlestick** by STC is a dial telephone modelled on an instrument of yesteryear, but made with modern components. It is available in Red, White or Black. There is no bell inside the telephone but one is provided separately.

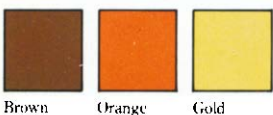

**The Ericofon 600** by Thorn-Ericsson is a one-piece telephone with a dial set in the base. It is available in Ivory or Orange. A separate bell is provided with this telephone.

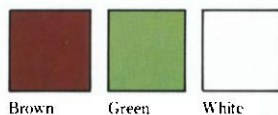

**The Dawn** by Northern Telecom is a modern design dial telephone with rounded lines and a low profile which will lend itself to a wide range of decors. This telephone is available in Pale Yellow, Avocado Green or White and the integral bell has a volume control.

**The Contempra** by GEC is a fashionable two-piece telephone with the dial incorporated into the handset. The integral bell has a volume control. This telephone is available in Brown, Orange or Gold.

**The Ericofon 700** by Thorn-Ericsson is the up-to-the-minute Ericofon design, improved in style and with all electronic circuitry. It has a press-button pad in the base and an integral tone-caller. This telephone is available in Brown, Green or White.

**The Mickey Mouse** by Plessey is produced by arrangement with Walt Disney Ltd. This colourful character stands on a simulated wood base which contains the dial and an adjustable tone-caller.

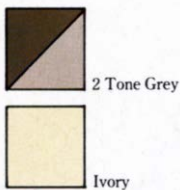

# Premium Telephones

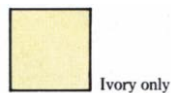

*Additional charges apply*

## Press-button Telephones

Modern, efficient, easier-to-use phones at reasonable extra cost.

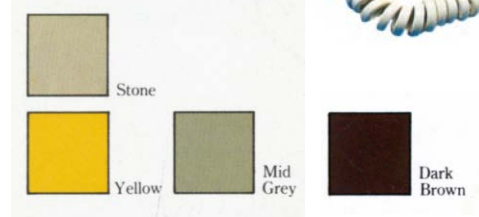

## Wall-mounted version

## The Ambassador

A modern press-button telephone which incorporates a carrying handle, (table and wall-mounted versions available).

### Note: Press-button Telephones

Due to the gradual introduction of new equipment throughout the British Telecom Public Telephone System, customers ordering press-button telephones may be provided with either ten or twelve button models, and in some instances a new dial tone.

Users of the twelve button models will also hear a 'confidence tone' on depression of the press-buttons. This tone varies

between press-buttons, simply informing the user that the telephone is functioning correctly.

Initially there will be no new facilities provided with the additional buttons, but their introduction is the groundwork for future new customer services. Because of this, no choice will be offered, and there will be no difference in charges.

**Telephones are available from other suppliers which may be connected to the British Telecom system. Should you wish to buy one of these we do urge you to make sure that any telephone you do buy is approved for connexion to the public telephone network.**

**As all of these telephones are supplied with phone sockets, it should be noted that they are not suitable for shared service installations.**

**DLE 500**

Please note: We do our best to supply our customers with the apparatus they ask for but we may have to provide apparatus which does not accord exactly with the descriptions, illustrations and shades of colours shown in this leaflet.

Your local British Telecom Sales Office will gladly supply any further information or details of any change in the information in this leaflet since it went to print. The address, telex and telephone numbers are shown in the preface of your Telephone Directory.
