

The Candlestick

Please Note

We do our best to supply our customers with the apparatus they ask for but we may have to provide apparatus which does not accord exactly with the descriptions and illustrations in this leaflet.

The Candlestick by STC

Whether you remember the 1920s or not, you are sure to recognise this distinctive style of telephone. The Candlestick telephone has been brought up-to-date with modern technology and can now bring grace to your home.

This upright phone is a conversation piece which adds style and charm wherever it stands.

It can be installed as a main telephone or, in most home situations, as an extension. It is available in three colours: black, red or white.

A separate bell is provided with this telephone.

The Candlestick telephone, manufactured by Standard Telephones & Cables Ltd., is installed and maintained by British Telecom.

Call your local British Telecom Sales Office for further details of the Candlestick Telephone.

The address and telephone number are shown in the preface of your Telephone Directory.

It is not possible to use the Candlestick Telephone on shared exchange lines.

For charges see separate leaflet.
