

The Eiger

with 'Memory Button'

Please Note

We do our best to supply our customers with the apparatus they ask for but we may have to provide apparatus which does not accord exactly with the descriptions and illustrations in this leaflet.

The Eiger by Gfeller Telecommunications

A strikingly attractive one-piece press-button telephone, the Eiger incorporates a 'memory button' which when pressed automatically recalls the last number called, very useful for those often engaged numbers.

It has a textured finish and is available in Red, Stone or two-tone Brown.

The Eiger is not suitable for use on shared exchange lines.

The Eiger telephone, manufactured by Gfeller Telecommunications, is installed and maintained by British Telecom.

Call your local British Telecom Sales Office for further details of the Eiger-Telephone.

A dark Grey version is also available for business users where PBX recall is required.

The Eiger can be used as a main telephone or on most extensions including PBX extensions.

The address and telephone number are shown in the preface of your Telephone Directory.

For charges see separate leaflet.
