The Contempra by GEC

The attractive modern style of the Contempra will be at home in any sort of setting – whether it be in the lounge or at the office.

As a special feature, the Contempra has its dial built into the handset, which has an extra long cord, so you can relax in comfort whilst making calls.

Available in three colours – gold, brown or orange, the Contempra can be used as a main telephone and also on most extensions.

The Contempra, manufactured by GEC Telecommunications Ltd., is installed and maintained by British Telecom.

Call your local British Telecom Sales Office for details of the Contempra. The address and telephone number are shown in the preface of your Telephone Directory.

For charges see separate leaflet.
